EMERGENCY MEETING POINTS

**In an emergency,
know where to go.**

In the event of a major incident or emergency that puts public safety at risk, evacuation of affected areas may be advised.

To support a safe, coordinated response, designated Emergency Meeting Points (Emergency Assembly Points) have been identified, where people can gather temporarily.

These EMERGENCY MEETING POINTS ensure that essential support and assistance are available during emergency situations.

The EMERGENCY MEETING POINTS have been carefully selected following a technical assessment, taking into account criteria such as accessibility, capacity to accommodate large numbers of people, and the characteristics of the surrounding area. This ensures a safe distance from hazards or risk zones, including unstable buildings or areas susceptible to secondary incidents.

These locations facilitate the coordination of emergency response operations and enable the swift and effective deployment of emergency services, while also supporting assistance actions such as the distribution of essential supplies, the provision of medical care, and the dissemination of timely and accurate public information.

Identify the **EMERGENCY MEETING POINTS** closest to your place of residence, work, or study on the Lisbon City Council website, accessible via the QR code.

The Municipal Civil Protection Service highlights the importance of having a **HOUSEHOLD EMERGENCY PLAN** and an **EMERGENCY KIT** containing water, non-perishable food, a thermal blanket, personal hygiene items, essential medication, and a first aid kit, which should be taken with you to the Emergency Meeting Point.
